

## How to move away from home and still stay in the neighborhood.

**A**t Genesis HealthCare, we know how important it is for retirees to be around friends and family. We know what it means to keep in touch with the counterman at the deli, or swap stories with your favorite barber.

That's why we build our Assisted Living Communities right in your neighborhood – so you never have to leave all of that behind. What we do help you leave behind are all the worries and day-to-day responsibilities of taking care of your home and yourself.

Enjoy the come-and-go freedom of private living, 24-hour security and scheduled transportation, gracious dining, elegant amenities and living life to its fullest – all without the burden of a heavy financial commitment.

Call our Genesis CareLine at 1.800.205.9342 for further information or visit any of the locations below at any time. You'll find us the perfect place to get away to... while still staying put.
